Department: Pre-Assembly/Plating

Job title: Senior Precision Assembler

Responsibilities:

- Works with a variety of tools, fixtures, and arbor presses
- Assembles various precision electronic/electro-mechanical components, sub-systems and systems
- Interprets blue prints, follows operation sheets, specifications and written as well as oral instructions
- Assembles very complex components and sub-systems with a minimum of supervision.
- Frequently instructs other less experienced assemblers.
- Trouble-shoots in all assembly areas.
- May build proto-type models of new products and assist with start-up of new product lines
- As necessary will be required to attend and pass solder certification classes and be recertified on an annual basis.
- Must be able to solder close tolerance connections, working with precision components of high dollar value
- Mark units as prescribed and maintain serialization
- Use precision gauges and test equipment to determine mechanical and electrical characteristics
- Required to perform work using 10x and 20x magnification
- Work closely with engineering personnel to solve assembly problems

Qualifications:

- High School Diploma or equivalent
- 8 years prior assembly experience
- Able to understand advanced math calculations
- Must be able to read blue-prints and operation sheets
- Must pass eye exam with 20/20 vision with corrective lenses
