**Department:** Winding

**Job title:** Stator Inserter

**Responsibilities:**

- Work from operation sheets, oral instructions, and written instructions to insure properly assembled components.
- Have the manual dexterity to use hand tools such as continuity checker, insertion fixtures, scissors, tweezers, etc., to work with rotor or stator lamination assemblies
- Follows written operation sheets regarding order and progress of inserting coils and closing slot papers
- Insert coils and insulation in prescribed sequence into various lamination assemblies
- Uses simple test equipment as assigned to determine continuity in windings before releasing unit to subsequent operations
- Examines tools and fixtures for damage and asks group leader or supervisor to correct problems

**Qualifications:**

- High School Diploma or equivalent & 6 months experience in other coil winding functions. Must be able to understand ordinary math calculations.
