

Unmanned Aerial Vehicle Capabilities

UAV Actuation

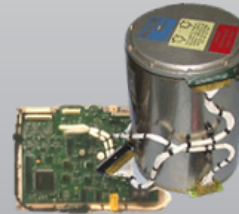

Geared Position Sensors

INS/GPS

On-Axis Position Sensors

IMU Kits

Innovative Solutions for Tomorrow's Warfighter

UAV Actuation	Linear & Rotary Compact Size COTS Models Available Ruggedized Power Transmission
On-Axis Position Sensors	Single & Multi-Speed Resolvers, RVDTs, & LVDTs Frameless or Framed Configuration Multi-Speed Resolvers Available for the Highest Accuracy
Geared Position Sensors	RVDTs, LVDTs, & Resolvers Anti-Backlash Gearing Environmentally Sealed Custom Packaging
IMU Kits	Flexible Kit Architecture Supports Weight & Envelope Constraints Compact & Lightweight
INS/GPS	High Accuracy Configurable for Specific Needs Compact, Lightweight Design SAASM/SPS/DGPS Configurations
